Anshul Sharma

anshulsharma09082022@gmail.com | +91 9555785029 | LinkedIn | GitHub | Portfolio

Profile

Computer Science Engineer with experience in Full-Stack Development, QA Testing, AI/ML, and Computer Vision. Skilled in building web applications and testing software features and workflows.

Education

- **Bachelor of Technology in Computer Science and Engineering** ***2022-2026***
  Pranveer Singh Institute of Technology (AKTU), Kanpur | **CGPA: 8.74/10 | First Division with Distinction**

Experience

QA Intern | Remote | FlexiFunnels (Misfits Change Makers Pvt. Ltd.) ***June 2026 - Present***

- Manually tested web features, checkout, membership, subscriptions, and UI workflows, Reported bugs, tested integrations and webhooks, and retested fixes.
- Created and executed browser automation scripts using Playwright and TypeScript.

AI & Data Analytics Intern | Remote | AICTE–Shell–Edunet ***October 2025 - November 2025***

- Completed a 4-week AI & Data Analytics internship focused on data preprocessing, exploratory analysis, and Python-based insights generation.

Full Stack Developer Intern | Remote| WorlnWell ***August 2023- September 2023***

- Developed **15+** REST APIs serving **500+** daily requests.
- Improved backend efficiency by **30%** and reduced downtime by **40%**
- Performed unit testing and assisted in production deployments.

Projects

NeuralEye *(Team Project | AI + IoT-Based Smart Surveillance)* **[GitHub]** ***February 2025- June 2026***

Technologies: *Python, OpenCV, YOLOv5, TensorFlow/Keras, Raspberry Pi, MQTT, AWS IoT*

- Developed an AI + IoT based surveillance system that monitors live camera feeds and detects intrusions, accidents, and suspicious activities in restricted areas.
- Integrated Raspberry Pi, MQTT, and AWS IoT to send real-time alerts to administrators and maintain cloud-based event logs for faster incident response.

Doctor's Appointment System *(Individual | Full Stack Web App)* **[GitHub]** ***August 2024- November 2024***

Technologies: *Laravel, MySQL, JavaScript, React.js*

- Developed a web-based healthcare platform that enables patients to book appointments online and allows doctors to manage schedules and patient consultations efficiently.
- Implemented role-based authentication, appointment tracking, and MySQL-backed patient record management to streamline clinic operations.

Online Quiz Platform *(Individual Project)* **[GitHub]** ***August 2023 - December 2023***

Technologies: *JavaScript, HTML, CSS, Firebase*

- Built an online quiz platform featuring General Knowledge, Technology, Mathematics, and academic subject quizzes with instant score evaluation.
- Implemented Firebase Authentication and Realtime Database to securely manage user accounts, quiz questions, and performance history.

Technical Skills

Languages: JavaScript, Python, Java, C++, PHP, SQL
Web & Frameworks: React.js, Node.js, Laravel, Bootstrap, HTML, CSS, REST APIs
Testing: Manual Testing, Functional Testing, UI Testing, Regression Testing, Test Case Design, Bug Reporting
Automation: Playwright, TypeScript, Automated Test Scripts, End-to-End Testing, Browser Automation
Databases & Tools: MySQL, Oracle, Firebase, Git, GitHub, Figma, OpenCV, TensorFlow
Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering
Domains: QA & Automation Testing, AI/ML, Computer Vision, Cloud Computing, IoT

Achievements & Certifications

- Solved **400+** DSA problems on LeetCode and achieved **5-star** HackerRank ratings in C++, Python, and Java.
- Top **30%** Performer – Accenture Hackathon 2024.
- **Certified** in Machine Learning, Cloud Computing, Salesforce AI, and Web Development.
